

The NEW ENGLAND
JOURNAL of MEDICINE

With a current journal impact factor of 176.079 (2021 Journal Citation Reports®, Source Clarivate, 2022), NEJM is a top-ranking medical journal in the general medicine category. Delivering high-quality, peer-reviewed research and interactive clinical content to physicians, educators, researchers, and the global medical community, NEJM publishes the best research and information at the intersection of biomedical science and clinical practice, presented in understandable, clinically useful formats that inform health care practice and improve patient outcomes.

Your subscription includes:

- Full-text access to ground-breaking original research, review articles, and all other content dating back to 1990
- PowerPoint slide sets and downloadable images, figures, and videos for presentations and teaching
- Article-level metrics, including Altmetrics, enhanced media coverage, and other data points that provide insight on an article’s global impact
- Over 90 high-quality instructional videos and hundreds of interactive, multimedia teaching and learning tools at NEJM.org
- Articles published online ahead of the print issue
- Supplementary material, including protocols, disclosure forms, and clinical trial registrations

NEJM
Evidence

NEJM Evidence is a clinical research journal focusing on providing context and critical evaluation of trial methods and results. Readers will go behind the scenes of early-stage discoveries and confirmatory trials that shape medicine and clinical decision-making. NEJM Evidence provides unique articles, including Tomorrow’s Trial, short pieces examining accepted practices lacking solid evidence; short review articles; Patient Platform, in which patients share their experience being in a clinical trial or study; case presentations; Trial by Fire, a podcast; and Stats, STAT! animated statistical videos.

Your subscription includes:

- Full-text access to original research, reviews, cases, and commentary
- Exclusive online media including brief animated videos
- Supplementary material, including protocols, disclosure forms, and clinical trial registrations
- Continuous publishing of new articles

Why NEJM Group journals on Ovid:

- Cross-searching across all NEJM Group journals
- Natural-language searching for all user levels
- Email alerts on latest news and just-published issues
- Time-saving tools to streamline research activities

NEJM Catalyst

NEJM Catalyst Innovations in Care Delivery is a peer-reviewed, monthly journal with practical innovations to inspire change in health care delivery. This journal connects health care executives, clinical leaders, clinicians, and academics with big ideas and practical solutions for health care delivery transformation. Articles focus on improving patient care, driving value, and addressing the complex, urgent challenges affecting care delivery. Renowned thought leaders and industry experts offer a personal perspective and share real-world examples and actionable solutions to transform health care in every organization.

Your subscription includes:

- Full-text access to in-depth articles, expert articles, case studies, Insights Interviews and event clips
- Access to live-streamed events with expert speakers and moderated discussions on important topics
- Exclusive survey reports from the NEJM Catalyst Insights Council, a group of over 17,000 health care leaders who share their candid views on critical issues and topics
- Audio and video interviews
- Reference links to related resources

NEJM Journal Watch

Backed by a team of over 60 physician editors, *NEJM Journal Watch Online* summarizes the most important articles from over 200 medical journals to help clinicians understand and use the latest medical research to improve patient care. Full-text access to key research summaries and expert perspectives in six specialties, including cardiology, general medicine, hospital medicine, infectious disease, neurology, oncology & hematology.

Your subscription includes:

- 19 email alerts, in a range of specialties and topics
- "Guideline Watch" articles summarizing key points of clinical guidelines
- Exclusive online media, including blogs, and audio interviews

The NEW ENGLAND
JOURNAL of MEDICINE

ARCHIVE | 1812-1944 | 1945-1989
