

NEJM AI on Ovid®

High-quality evidence on integrating AI within the healthcare system—available on both Ovid® and ai.nejm.org

More and more, Artificial Intelligence (AI) is being applied in clinical medicine to improve medical diagnosis, practices, and safety. And while AI technology is advancing, evidence of the benefits of clinical applications to patients, providers, and healthcare systems is lacking.

NEJM AI, published by NEJM Group, bridges the fast-moving developments in AI, informatics, and technology in medicine with the application of these advancements to clinical practice. *NEJM AI*, along with the *New England Journal of Medicine* and other NEJM Group publications, is available online to institutions via the Ovid® platform—and subscribers have access to content on both Ovid® and ai.nejm.org.

Key features:

- Ideal for practicing physicians, clinical leaders, researchers, computer scientists, and policy-makers and regulators
- Original research, datasets and benchmarks, literature reviews, policy perspectives, clinical cases, and expert commentary
- Coverage spans biomedical informatics, telemedicine, imaging, personalized medicine, policy and regulation, and ethical and legal issues
- Access to a monthly podcast exploring issues at the intersection of AI and medicine
- Twice-monthly newsletter with podcast excerpts, takeaways, and recommendations
- Access to *NEJM AI*-hosted virtual events on timely topics and issues
- Dual access on BOTH Ovid® and ai.nejm.org
- Single-query, cross-searching of all NEJM Group resources on Ovid®
- Precise, natural-language searching and time-saving results management and sharing tools

Why *NEJM AI on Ovid*®?

- Learn about approaches to using AI to transform medical care
- Identify and evaluate state-of-the-art AI applications to clinical medicine
- Discover high-quality evidence and analysis on clinical, regulatory, and operational benefits of AI
- Offer dual access on two flexible and complementary online platforms
- Integrate with your institution's other Ovid-subscribed resources
